Legs And Lives

A Mechanical Dummy

inserts needle in head of patient

explosions, earthquakes, airplanes, construction machinery, locomotives, or even a malfunctioning air-conditioning system.

The show, as one critic put it,

will make them more pert and firm and succulent.

suffers from an acute attack of

fullness in her mouth, and the sound of his shallow breathing.

"Once more she tried to pull away and once more she was held in place. Anger welled inside her. She took the restraining hand from her head, grasped the pink prong and just as it started to ooze translucent milk,

a rather foul-smelling discharge at the lower end of my spine. There is a small opening in the skin.

inside the cramped suitcases

Still Waiting

Do you seem to suffer a lot of unnecessary, non-organic physical ailments -- like hemorrhoids, heart palpitations, heartburn, headaches, and a lot of other things that don't even begin with an h?

When you do get mad, do you sometimes get mad enough to "kill"?

And when he gets off, his buddies put some pills in him and he acts like an idiot until he falls asleep like a baby.

"Susan rose unsteadily, rubbing the ooze of semen in her hands as though it were lotion. Then,

That

Dead Boy

He's Still Living

She undressed slowly, still a little groggy from the half-dozen Bloody Marys drunk at the neighborhood bar.

Switching off the light, she climbed into bed, ready for a peaceful night's sleep.

In the dim shadows of her bedroom, half-asleep, the doorknob appeared to move. "Did I lock the front door," she sleepily thought.

Suddenly the door burst open and a leering man, zipper open and genitals exposed, stood there.

Dying

IN DREAMS

fell asleep at the wheel?

Thousands of Americans die each year in such crashes often as a result of fatigue caused by their fruitless search to find an equipped rest area on a long, lonely road stretching for hundreds of miles.

A SPLIT SECOND IN ETERNITY

The Ancients Called It COSMIC CONSCIOUSNESS

"The hypothalamus could well be called the 'seat of sin.'

"We have taken monkeys which have just eaten and drunk to their fill, and given them injections which stimulate them to eat and drink still more. And we have done the reverse, making hungry and thirsty monkeys refrain from eating.

Imagine you are a tube of toothpaste. Place your hands at each side under the armpit and squeeze yourself limp all the way down until you run out of "paste."

GOING . . .

Going . . .

Shlurp . . .

GONE!

The slightest pressure on her body — even a violent sneeze — can break her fragile bones.

Dangers as

Modern art is another example of extreme permissiveness. It is, in my view, an art that admits our civilization could be near a point of social and psychological collapse.

The sniffers are outdoor air testing units which look like metal cabinets.

Fire Safety in Skyscrapers

... It Causes Depression, Suspicion And Violent Behavior, Says Expert

persons burned to death in new high-rise office towers.

The code would require installation of devices to prevent automatic elevators from being drawn to floors where there is a fire.

the only way the door could be opened would be for a rider to press a "door open" key inside the car, and if he released the button while the door was opening, it would have to reclose automatically.

In the early stages of their inquiry into fire safety in skyscrapers, city investigators had suggested that some types of automatic elevators seemed to be summoned to the very place where there was fire, with the automatic doors opening when they arrived.

Training Called For

in Power Plant Site

When workers become addicted to nitroglycerine they develop a disease known as "dynamite heart" and they develop the symptoms of heart disease and can even suffer heart attacks and die, he said.
